TEXAS VITAL STATISTICS.

Hookworm Treated in Hunt County as Early as 1904.

Austin, Texas, Jan. 3.—The bulletin of the state board of health for December, received today, shows the following vital statistics for November: Male births, 2,140; females, 2,022; whites, 3,900; blacks, 262; alive, 4,015; stillborn, 147; deaths, 1,036.

The bulletin contains a communication from Dr. W. P. Dunbar, calling attention to the fact that he had treated patients for the hookworm in Hunt county as early as 1904 and wishing to have his county mentioned as one of the infected counties.

Dr. Z. T. Scott, state bacteriologist, has contributed to the bulletin an article on the hookworm disease, its treatment, prevention, importance, description, etc. "The Relation of the Embalmer to the Public Health," by Colby E. Smith of Dallas, is the principal article in this issue.

holidays with relatives, left yesterday for Austin, to resume his studies in the State University.

Miss Elizabeth Barry returned to school at Austin today, after spending the holidays with her parents.

Ben Davis, formerly of this city, passed through the city last night from Jacksonville, en route to Willis to see his father, who is quite ill.

W. R. Herron and daughter, Miss Frankie, are here from Oklahoma. They say they are very much pleased with their new home in the new state.

River Boat Blew Up.

(Herald Special.)
Pittsburg, Pa., Jan. 4.—A river boat blew up near Beaver shortly after noon today. Several men are reported to have been killed, but so far no particulars have been obtained.

The boat was the pump boat of the Peoples' Coal company, and a later report says George Young, the engineer, was the only one killed.

Dr. Cook Heard From.

Copenhagen, Jan. 3.—Walter Lonsdale, Dr. F. A. Cook's secretary, announced tonight that he had received a letter from Dr. Cook, but he declined to give the explorer's address. Mr. Lonsdale said he would inform Dr. Cook of the university's decision, of which he is convinced Dr. Cook is still ignorant.

co's protests of friendship he believes that country is very bitter against the United States and with the going of Diaz he looks for trouble of a serious nature between Mexico and the United States.

Quicksilver Industry.

(Herald Special.)
Washington, D. C., Jan. 4.—The state of the quicksilver industry in the United States was unsatisfactory last year, according to the report of the geological survey, although there was some improvement over 1907. Prices were higher, but the value of the total output was lower, being \$823,941 in 1907 and \$824,146 in 1908. California, the principal producing state, turned out in 1908 quicksilver amounting to \$684,716 in value, as compared with \$662,554 in the previous year. This country in 1908 was the third producer of the metal.

Fifty Steel Cars Ordered.

(Herald Special.)
New York, Jan. 4.—The New York Central railroad has placed an order for two thousand 50-ton all steel Gondola cars with the American Car Foundry company, making the total orders for December 10,200 cars. This, the fourth, is the heaviest quarter of the year. The total orders placed during the year have been 295,000 cars, calling for something in excess of two million tons of steel plates and shapes.

NOTES OF SPORT.

Baseball Notes.

Bert Annis has sold the South Bend, Ind., team of the Central League.

Johnny Evers of the Chicago Cubs denies that he intends to retire from the diamond.

Both the Cleveland and New York American League clubs are trying to sign Pitcher Al Orth.

It is most likely that Lou Criger of the St. Louis Browns will wear a New York Highlander uniform next season.

It is reported that Manager Connie Mack of the Athletics intends to make an outfielder of Third Baseman Rath.

Jack Grimes, who was a big leaguer when they kept score on slabs of stone, has purchased the Portsmouth club of the Virginia league.

George Bell, the Brooklyn pitcher, has jumped to the farmers' league. He has bought a ninety-five acre farm in Tioga county, Pennsylvania.

Little Rock will be without a Southern League team the coming season and will perhaps form a new combination with Fort Smith, Joplin and St. Joe, Mo.

The National League grounds in Philadelphia, Pittsburg and Boston have been leased to amusement interests for night performances during the baseball season.

The Pittsburg club went \$4,000 deep to find Jack Flynn, the star first baseman of the St. Paul team. A good part of last season the whole St. Paul outfit didn't look to be worth that much money.

Ty Cobb told a Cleveland judge that it was going to be a hard winter and he could not see how he could pay a hundred dollar fine for assaulting a hotel watchman. As Ty had just purchased \$20,000 worth of Georgia land

his pathetic story to the Cleveland court was probably true.

With the Fighters.

Young Pierce of Philadelphia will meet Digger Stanley, the English bantam, in London, February 8.

Benny Yanger, the old Chicago featherweight, wants to get back into the game. And lots of people want touring cars for holiday presents.

Billy Madden is looking for a fighter good enough to be made a world's champion heavyweight. Later, Billy is still looking.

PLAYS AND PLAYERS.

Margaret Anglin may have a new play by an English dramatist, Frederick Fenn.

Nat C. Goodwin has given up mining operations to devote himself wholly to stage work.

A. H. Woods is soon to produce "The Dancer of Cairo," by Paul M. Potter, and a play called "The Two Mrs. Trumps."

Elsie Ferguson, starring this season in "Such a Little Queen," began her stage career as a chorus girl in "The Belle of New York."

"Septimus," with George Arliss in the star role, has left the Hackett Theatre, New York, to fill engagements in the east and middle west.

Robert Edson has closed his successful season in "The Noble Spaniard," and has returned to New York to rehearse his new play, "A Man's a Man."

Sam Bernard will end his engagement in the Casino, New York, soon after the holidays and take "The Girl and the Wizard" on a tour extending to the Pacific coast.

Iron and Steel Trade.

(Herald Special.)
Pittsburg, Pa., Jan. 4.—The iron and steel trade are anticipating an increase of trade during this year. A number of the mills making steel rails have been only partly operated during the last six months of 1909. The greatest trouble that this city has to contend with is that of the railroad service. The capacity of the railroads is taxed to the extreme and the capacity in iron and steel in this district is expanding faster than the railroad service.
